TERMS OF USE

1. About the service

The IT Project Security Compliance Management System is a prototype developed for a bachelor's thesis. It is provided free of charge, for demonstration and evaluation purposes only.

2. Access

Accounts are created only by invitation from a project manager. You are responsible for keeping your password and your multi-factor authentication device secure, and must not share your account with others.

3. Acceptable use

Do not upload real confidential documents, real personal data of third parties, or any unlawful or harmful content. Use test or demonstration data only. Do not attempt to access projects or functions you are not authorised for, or to disrupt the service.

4. No warranty

The service is provided "as is", without any guarantee of availability, accuracy or fitness for a particular purpose. Compliance statuses and reports produced by the system do not constitute certification or legal advice.

5. Changes and termination

The service, its data and these terms may be changed, reset or discontinued at any time, in particular after the thesis evaluation. Accounts may be deactivated if these terms are not followed.

6. Personal data

How personal data is processed is described in the Privacy Notice.

7. Contact
